

NEW RELEASE
6000 Litre Model

The Formit Waste Storage Tank has been engineering certified and meets the Australian Standards for a building mass of up to 7000kg plus 12 persons..

Our waste storage tanks are popular in remote building and construction sites, civil construction sites, special events, army camp locations, and just about anywhere that doesn't have a sewer connection.

The Formit Waste Tanks have been tested and proven over many years to be strong, reliable and long lasting. These tanks now come in three sizes to suit all different ablution block sizes.

KEY FEATURES

- Heavy Duty Steel Frame Construction
- Special Gusset Reinforcing
- Engineer Certified No. E3577
- Certified to withstand 7000kg + 12 people
- 3 sizes to suit all applications (See reverse)
- Long Life Polyethylene tanks will not rust
- Special locator tab/lift points
- Steel tow hook on all sizes
- Tank top connects to frame to avoid sagging
- Special Double Clamped triple wall connector hose used on multi tank models
- Special pump out port available.
